What's Been Happening in Our Classes?

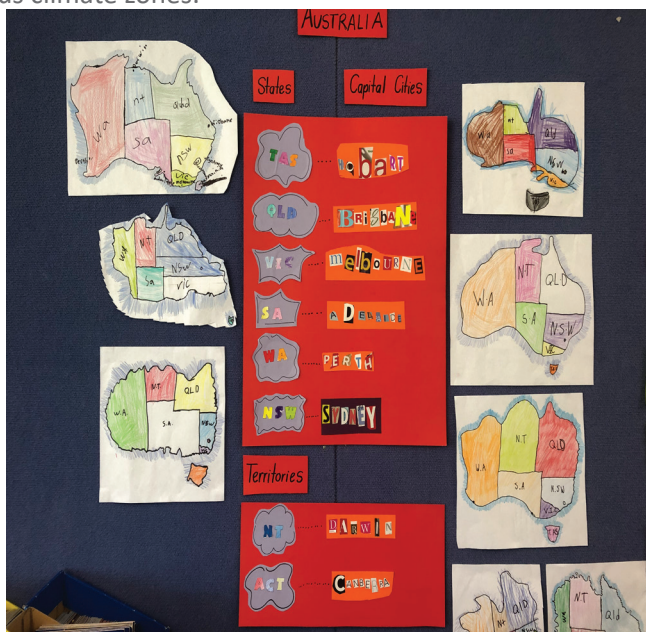

Year K/1/2

In our Science lesson this week, the K/1/2 students were very excited to participate in an experiment about 'forces'. We rolled different objects down ramps of different heights to see if we could knock over a box at the end. We have some real 'budding scientists' amongst our little BPS students!

Year 3/4

We have been learning about Australia in geography. Students have located states and capital territories. They have drawn free hand maps of Australia and looked at various climate zones.

Years 5/6

This week in our classroom we have been very busy engaging in a range of activities. Our class has just started the process of stop motion animation. We will need to construct the sets and props ourselves and then work out how to film the figures. Regional swimming is next Tuesday, Netball trials are next Friday and Louis was away on Wednesday for cricket trials so lots of sporting activities going on. In addition, we have a few students trialling for the upcoming soccer, tennis and hockey trials too. Also this week, we have had a couple of small assessment tasks to do and an upcoming science project due in Week 9.
